S P R I N G B R O O K N U R S E R Y

South Haven, Michigan

Spring and Summer 1936.

Which do you prefer, plants having a sturdy, stocky root system full of life and vitality, or plants having thin, spindly roots which are weak and half starved? The former of course, and all our plants have it because they are grown on a rich, sandy soil that produces just such a wonderful root system as well as a strong, sturdy plant. All shipments are carefully graded, A-1 stock.

Buying plants grown in such a soil saves you money on transportation too, as it shakes completely off the roots when the plants are dug. You do not pay express on a lot of heavy soil. Also, all our packing is done as light as possible, consistent with safe delivery.

We guarantee all shipments to be true to name, but no other guarantee of any kind is given. All offers are made and all orders are accepted subject to prior sale or failure of crop.

Terms: 2 1/2 10 days, net 30 days to those with established credit; otherwise cash with order. All shipments are F. O. B. South Haven, Mich. We make no charge for packing. 25 at 100 rate, 250 at 1000 rate, where a rate per 1000 is quoted.

	10	100	1000
<u>Aquilegia Dobson's Imperial Hybrids.</u> One year plants. Long spurred, mixed colors. 2 1/2 Ft.-----	.50	3.50	-----
<u>Artemisia Silver King.</u> Striking contrast plant with silvery leaves, good for fresh or winter bouquets. 2 1/2 Ft. 1 year field clumps---	.65	5.00	40.00
<u>Aster Climax.</u> Large pyramidal spikes of light lavender-blue flowers in Sept. Fine cut flower. 4-5 Ft. 1 year field clumps-----	.85	7.00	60.00
<u>Aster Queen Mary.</u> Best of the Novi Belgi type. Makes a lavish display of light blue flowers in Sept. Fine cut flower. 3-4 Ft. tall. One year field clumps-----	.85	7.00	60.00
<u>Aster Sunset.</u> One of the best of pink asters, being a pleasing sunset-pink and very free flowering. 2 Ft. 1 year field clumps-----	1.00	9.00	-----
